
Neustar Recognized in CRN's 2017 Network Connectivity Partner Program Guide

Jul 26, 2017

[Neustar](#), Inc. (NYSE: NSR), a trusted, neutral provider of real-time information services, today announced that [CRN](#)®, a leading media platform for the IT channel community and part of [The Channel Company](#) network, recognized Neustar in the [2017 Network Connectivity Partner Program Guide](#). The annual guide highlights service and infrastructure providers and master agents whose telecom, cloud, security and connectivity offerings help partners navigate and succeed in the ever-changing connected world.

“The vendors featured in our 2017 Network Connectivity Partner Program Guide expertly equip their partners with the critical connectivity services needed to get customers to the cloud,” said Robert Faletra, CEO of The Channel Company. “These companies represent some of the industry’s leading telecom, cloud and connectivity portfolios, along with outstanding marketing and sales assistance that enables solution providers to build lucrative, recurring revenue services.”

In April, Neustar announced its [Cloud Security Partner Program](#), a channel partnership program for a select group of strategic business partners and cloud service providers. The program enables its channel partners to capitalize on the growing adoption of cloud security solutions by providing an industry-leading cloud security solutions stack and unmatched SLA commitments. [Neustar Security Solutions](#) offer flexible deployment methods for a variety of cloud services, including DNS and DDoS mitigation solutions.

“Being included in CRN’s Network Connectivity Partner Program Guide reflects the momentum and success of Neustar’s channel program since its launch and it’s a great indicator of our future success,” said Lee Finck, Vice President, Worldwide Channels, Neustar. “Delivering security and infrastructure services via the cloud has become front and center in the business plans of high-growth channel partners. Neustar’s channel program provides a mature, well-proven portfolio of services to complement our partners’ existing solution stack with best-in-class offerings for DNS, DDoS mitigation

and IP intelligence products.”

The Network Connectivity Partner Program Guide will be featured in the August 2017 issue of CRN and can also be found on Crn.com.
