

Ambrosia Software Chooses NeuStar's Webmetrics Service to Enhance Customer Experience

May 26, 2009

NeuStar announces that Ambrosia Software, a publisher of award-winning programs for

Macintosh, iPhone, iPod touch, and Windows, has chosen NeuStar's Webmetrics Application

Performance Monitoring service to optimize the performance of Ambrosia's online applications.

NeuStar's solution was selected for its thoroughness, flexibility, and simplicity and will allow

Ambrosia to identify, diagnose, and prevent problems with online applications before customers

are impacted.
