

NeuStar's Webmetrics GlobalWatch Network Expands to Over 100 Unique Major Cities Worldwide

Jun 22, 2009

NeuStar announces the expansion of its Webmetrics GlobalWatch performance monitoring

network to over 100 major cities worldwide. With 85 new cities added since 2006, this

expansion makes NeuStar's Webmetrics GlobalWatch one of the industry's most comprehensive

monitoring networks. NeuStar is now poised to provide the most accurate views of web

performance from the greatest number of unique locations worldwide.
