
Neustar Reveals Consumer Insights for Brands on U.S. Tax Day

Apr 9, 2015

PlatformOne™ Offers Marketers New Non-Intuitive Insights to Target Audiences Most Likely to Spend Their Tax Return

[Neustar](#), Inc. (NYSE: NSR), a trusted neutral provider of real-time information services and analytics, today released new non-intuitive insights about U.S. consumers to highlight where they may be spending their tax refund. Marketers are constantly searching for ways to better engage with potential customers by learning more about their spending habits. During tax season, advertisers can target potential customers who are eager to spend their well-deserved tax refund.

[According to the National Retail Federation \(NRF\)](#), about half of those expecting a refund, plan to spend it, rather than save it. Among the items consumers plan to spend their tax refund on, include daily expenses, vacation, major purchases (like a car or television), and paying down debt. To augment that insight, Neustar analyzed the demographics and spending habits of three generations – Millennials (age 18-35), Generation X (age 36-50), and Baby Boomers (age 51-69) – to provide marketers with the most complete portrait of generational differences in buying behaviors.

CONSUMER INSIGHTS FOR BRANDS ON U.S. TAX DAY

What do U.S. consumers do with their tax day refunds? Half spend it and half save it*. For those who don't put it in the bank:

- 39% will pay down debt
- 25% said they would use it on daily expenses
- 13% spend the money on a vacation
- 11% put it toward a major purchase like a car or television

HOW ARE U.S. CONSUMERS FILING THEIR TAXES?

Here's how three different generations prepare their tax returns according to PlatformOne® data:

HOW ARE U.S. CONSUMERS SPENDING THEIR MONEY?

Take a look at how family situations, daily expenses, vacations and other major purchases compare across the three age groups. Non-initiative consumer insights like those below help marketers and advertisers understand consumers and reach them where they may be spending their well-earned refunds.

KNOW YOUR AUDIENCE TO SERVE BETTER ADS

1. Employ your offline data to target customers on digital channels
2. Deliver a consistent message across every customer touch point
3. Increase your campaign reach without sacrificing relevance
4. Target accurately, relying on continuously-verified customer data

METHODOLOGY

Neustar's PlatformOne® utilizes data from over 4 billion consumer transactions every day, cross referenced against 15,000 online and offline attributes with anonymized data from 220M U.S. adults across 120M households. These attributes are derived from primary and secondary research sources that help describe customers in terms of household and lifestyle factors including demographics, purchase behaviors, lifestyle patterns, financial profiles and media consumption.

neustar

Using the [PlatformOne™](#) marketing solution, Neustar identified which preparation method each generational group prefers when filing their tax return. For instance, 20 percent of Generation Xers use Turbo Tax® online and 15 percent of Millennials go to an H&R Block® storefront to get help with filing their taxes. Neustar also found that 26 percent of Millennials acquired their first home mortgage, 17 percent bought a used car in the last 12 months, and 16 percent take group trips when going on vacation. Non-intuitive insights like these provide marketers with high value information for a campaign with a personalized dialogue across all channels.
